Back cushion contains 4³/₄"-thick high-density, high-resiliency, CFC-free, laminated polyurethane foam. Select standard cushion or sewn-tufted cushion.

Frame is constructed of plywood, utilizing lap joint construction that is glued and screwed.

6"H legs are powder-coated steel and available in three styles: square, round or Y.

▶ See page BO.4.

Attached seat cushion is 6"-thick thick and made of high-grade, high-resiliency, CFC-free, laminated polyurethane.

Non-skid, adjustable glides are 2" in diameter.

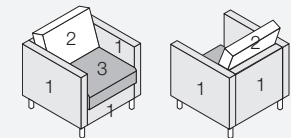

Boyd is offered in one-, two-, and three-seat lounge models. Models meet or exceed the applicable BIFMA/ANSI standards.

Leg and rail joints are double doweled, securely glued, and reinforced with corner blocks that are then glued and screwed to the base rails. The base frame is attached to the seat frame with wood screws through the rails.

Back cushions consist of high-density, high-resiliency foam over a non-stretch woven suspension that is stapled to the frame.

Seat is designed for comfort, giving you a residential feel. Wrinkles in the seat cushion are adherent to the design and should be expected.

Arms feature a sewn slipcover over top 1/2"-thick, high-grade polyurethane foam.

Contrasting textiles or leather may be specified on the outer frame (1), back cushion (2), and seat cushion (3).

Accent pillows are available.

Tips

IMPORTANT: Orders cannot be cancelled for chairs specified with Alliance Program textiles.

When specifying a striped or directional textile, a solid pattern is recommended for the back cushion due to alignment constraints.

Contrasting textiles or leather are available. Use an electronic specification tool for accurate pricing.

Models that meet TB133 requirements are available in select textiles or leather.

Kimball has analyzed each model to most accurately reflect the COM/COL yardage requirements shown on the pricing pages. The yardage requirement for each model is based on 54"W textile and cutting the textile up the roll.

For widths other than 54", increase the yardage requirement by the factors below:

| <i>Textile width</i> | <i>Increase yardage</i> |
|----------------------|-------------------------|
| 50"-53" | 15% |
| 48"-49" | 30% |
| 45"-47" | 45% |

If repeat is larger than 18", contact Customer Service to confirm the correct amount of yardage required.

When ordering 10 or more chairs in the same COM, yardage requirements may be reduced.
