TYBA® SEATING

Overview

Planning

Statement of Line	▶ See page TY.2
Planning	TY.3
Pricing	TY.4
Surface Materials	TY.7

Tyba's design allows for relaxed seating postures to promote more casual spaces for group collaboration or individual focus time.

Back slightly reclines for comfort.

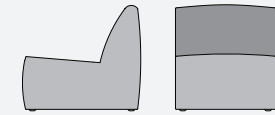

Plywood frame is covered with foam padding on seat and back and wrapped with a channeled down covering to provide a soft, comfortable sit.

Glides are non-adjustable.

Plinth-base models feature:

- Hidden TFL plinth base that conceals fasteners
- Low-profile, non-adjustable glides to protect flooring
- Reinforced stitching for added durability for use in high-wear applications
- Weighted or non-weighted models; weighted units are a minimum 100 lbs. to encourage units to remain where intended

Note: Mini-ottomans are available with plinth base, but are not available weighted.

- = Inside back
- = Seat top (not shown)
- = Exterior back and sides

Contrasting textiles or leather may be specified for the seat top, inside back, and the exterior sides/back on the lounge; for the ottoman, contrasting textiles or leather may be selected for the top and sides.

IMPORTANT: Redistribution of down filling over time may appear as comfort wrinkles. Some puckering is expected along vertical and horizontal seams due to the relaxed upholstery. Down-filled channels may telegraph through thinner textiles; specifying a thicker textile is recommended.

Kimball has analyzed each model to most accurately reflect the COM/COL yardage requirements shown on the pricing pages. The yardage requirement for each model is based on 54"W textile and cutting the textile up the roll.

For widths other than 54", increase the yardage requirement by the factors below:

<u>Textile width</u>	<u>Increase yardage</u>
50"-53"	15%
48"-49"	30%
45"-47"	45%

If repeat is larger than 18", contact Customer Service to confirm the correct amount of yardage required.

When ordering 10 or more chairs in the same COM, yardage requirements may be reduced.
